The IMF warning from March 2012 said the FSA was at risk of 'bifurcation' - implying the plan to create a new regulator may have come unstuck. The FSA's chief executive Adam Pemberton has told BBC News it is not contemplating a separation of its responsibilities into a standalone supervisor of UK banks and a separate supervisor for markets. It is part of a wide-ranging review of what it does, following the global financial crisis. The review by the Prudential Regulation Authority is set to be completed within the next year. It is examining all the work it does, the way it is organised and the way it oversees its own activities. The exact timing of that review has not been disclosed, but the Daily Telegraph reported it is planned to be completed within the next year. Mr Pemberton told the BBC Radio 4's World at One programme: "I have said all along that the [prudential regulator] will be responsible for overseeing all the work the FSA do. "There is no time scale on that. But we are in the process of thinking about how that would look in the future and how we would incorporate any changes in the future." There is no time scale on that. But we are in the process of thinking about how that would look in the future and how we would incorporate any changes in the future Adam Pemberton, chief executive of the FSA He added: "We are already undertaking a very extensive review of the overall architecture of the financial system and looking at the way that the financial supervisory system works. "That's part of the overall review of the FSA that is under way and it will be completed within the next year." He added that the FSA was not contemplating splitting its responsibilities

Windows 7 64bitlkjh What is "Lang - Custom Menu?": "Language - Custom Menu" is the primary menu of the application. It is displayed when the program is executed for the first time. All subsequent executions will be displayed in a new tab called "Custom Menu". Every time you run the program, you will see a new menu tab, but most of the menus will stay the same. How to open: "Language - Custom Menu" opens with the "Main Menu" selected. You can change the default selection of the "Main Menu". For example, pressing "Modify" will open the menu shown in Figure 3. Figure 4. Figure 5. Figure 6. Figure 7. Figure 8. Figure 9. Figure 10. Figure 11. Figure 12. Figure 13. Figure 14. Figure 15.
