Description: Prepare for some calculus Simplify the expression $x^{\frac{1}{4}} \cdot 2$. Ans: $\frac{1}{4}$. $4 \cdot 3 \cdot 7 \cdot x^{\frac{1}{4}} \cdot 3^{\frac{3}{4}} \cdot 4 \cdot 7$
The last part is simplified to $3 \cdot 16 \cdot x^{\frac{1}{4}} \cdot 3^{\frac{3}{4}}$ Here is the link to the Excel file: May 10, 2013 Coming Down To Earth As we spend three days in the Washington, D.C. area, a lot of our explorations have been exploring Civil War sites and watching our visiting cousins grow up. This has been a very enjoyable trip, we have enjoyed meeting the new special cousins and visiting all of our favorite cousins. Wytheville is a pretty small town, I was just wandering the streets and as I was following a stream of strangers, I realized that is where I was. I know for sure that I am at that small stream, but I don't know for sure where it goes. I'll have to ask my cousin next time we are back home as I have never been there before. I was talking to one of our favorite cousins, and he suggested I show myself to others too. So I brought my camera and it turns out a lot of people were interested. Some asked me what I was, and others watched my hand and saw the ice chips fall. We were done in just a couple of minutes and they all asked to take a photo with me. That is what made the trip very enjoyable, that people like that ask for photos. For the ones that took

photos, this is the reference you have to follow me around and get all the facts straight. This is Mary Sheehan, she is 62 years old and was born in Smithville. She was married to my uncle for 19 years and is an amazing lady. She has been to Europe, Africa, Asia and even the Orient, but she has never been to New York and we have decided that will be the adventure next. After talking to all of the visitors, we were headed to another part of Virginia. Our cousin was amazed by the way we knew where we were and that I knew where I was, he just laughed it off saying that I will leave him in my dust any day. That is one trait I really love about my cousins, they don't fuss with things, they just deal with it and get on with it. 6d1f23a050
