Watch Parkasana movie 1 video in HD. The Summer and Fall festival is the longest running in the area. The festival usually last from the beginning of June up till the first part of September. The many rides, food vendors and game booths take up a lot of the festival area of the fairgrounds. There is lots of fun and excitement that takes place every day throughout the event. If you want to take a break from the ever changing activities outside you can head over to the vendors and craft booths which include a whole lot of different crafts. A large part of the fair is made up of food vendors. There are also food trucks that make their appearances at the fair. There are several variety of food

---

vendors that offer food from across the globe. One of the main attractions at the fair is the fireworks display. The fireworks display usually takes place on the last day of the fair. It usually lasts up till 2:00 in the morning. The fireworks are spectacular and it is a sight to see. Fair attendees can also enjoy a number of live musical performances throughout the event. The largest annual event in the area is usually held in late August or early September. The festival usually lasts for several days. This year's festival was supposed to happen in September. The event is called the 'bronze rally'. The event is sponsored by the local Air Force base. Many of the aircraft and vehicles from the base are on display at the fair.

**DESCRIPTION (Applicant's Abstract):**  
This application for support of the 2012 Gordon Research Conference on Ion Channels and Transporters focuses on how physiological and pharmacological stimuli regulate ion channel function. These regulatory mechanisms contribute to maintain normal physiology, and contribute to pathophysiology. Regulation of ion channels is a major contributor to physiologic behavior, including excitability,

---

---

hormone release, paracrine signaling, and the cardiac action potential. Abnormal regulation of ion channels can lead to cardiac arrhythmias, neuropathologies, and inflammation. The program aims to balance breadth of ion channel coverage with sub-special
